En **komplet menu fra Thummelumsen** i Langeland med alle **20** menuer og drikkevarer finder du her på menuen. The restaurant has a cozy atmosphere, but can be noisy with many children. Service can be slow due to limited staff. Some guests experienced food poisoning, suspecting the sauce. However, the burgers were a standout, praised as the best in years. The fish was also delicious, despite the restaurant not specializing in seafood. The menu is simple but well-executed. Some customers noted additional charges for water and missing items on the menu. Overall, the food quality was good, particularly the burgers. The restaurant is worth a visit for its tasty offerings and pleasant service.
